ADIT

Stella Strati completed the Advanced Diploma in International Taxation (ADIT)

At Patrikios Pavlou & Associates LLC, we continuously invest in our team's professional expertise to keep track with the latest developments and ever-growing demands. We are also very proud of our team's persistent success.

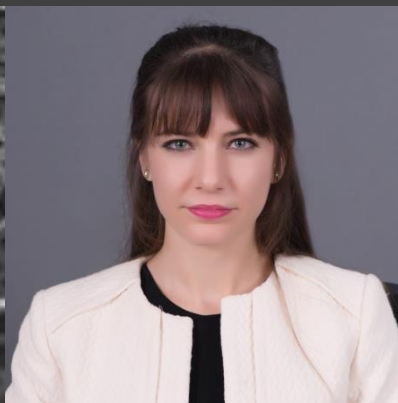

Stella Strati, Partner-Corporate Finance, successfully completed the Advanced Diploma in International Taxation (ADIT), the advanced level designation in cross-border tax, provided by the Chartered Institute of Taxation (CIOT), the UK's leading professional body for tax advisors.

Being an ADIT professional and an International Tax Affiliate of the CIOT, Stella is identified as an International Tax Specialist and a member of a growing network of tax professionals, able to provide robust tax advice in multiple countries and international tax subjects.

Congratulations to Stella for her great efforts, hard work and commitment to excellence.

UNIC's Blockchain, Law, Regulation and Policy Professional Certificate Course

Senior Associates Angeliki Epaminonda and Angelos Onisiforou successfully completed the Blockchain, Law, Regulation and Policy course offered by the University of Nicosia, the leading university globally in the digital currency and blockchain field, and 2018's "Biggest Contributor to the Rise of Blockchain".

This high level specialization course provided amongst others an in-depth analysis on virtual currencies and crypto-assets, regulatory and legal issues, taxation, customer protection, smart contracts and compliance and risks in a worldwide context.

Angeliki and Angelos can pride themselves on being amongst the first professionals to obtain this certificate in Cyprus. They are now positioned in an exclusive network of business and financial experts with a deep understanding of blockchain enabled markets, able to meet the growing demand for blockchain expertise.

Congratulations to Angeliki and Angelos for their motivation to perform at high standards.
