

A MULTI-TOP TIER law firm for The Legal 500 once more

We are very proud that The Legal 500, EMEA 2020 edition once again recommends our law firm as a TOP TIER firm in Dispute Resolution and Tax and ranks our Banking & Finance, Commercial, Corporate and M&A, and Real Estate and Construction practice areas amongst the best in the Cyprus legal market.

In the Dispute Resolution practice, our *“very fast and efficient team”* is once more praised by one of the world’s leading researchers to the best law firms and top lawyers for its ability to *“devise inventive and workable solutions to difficult problems”* and for its *“excellent knowledge of the market”*. Clients testify that we are *“very personal”* and *“among the most pre-eminent practices in the region”*, *“always ready to go the extra mile and available to talk, help and offer legal advice in any sphere, to make sure the client is fully satisfied”*.

The excellent rankings reflect our results-oriented team’s experience in *“litigation and the corporate law aspects of tax, including the establishment of tax planning structures for complex cross-border deals”*, and its specialization in multi-jurisdictional projects, international restructurings and cross-border M&As. The results also validate the team’s ability to provide extensive legal advice to high-profile international multinationals and banking and financial institutions, high-net worth individuals, and some of Cyprus’ largest banks and project developers.

The team’s expertise on handling commercial and residential property-related projects, aircraft regulatory matters, and ship registrations, is also praised.

This great achievement further enhances our commitment to excellence. A great thank you to our talented and highly qualified team that always acts with integrity, professionalism and respect to our clients and associates. A big thank you also to our extended network of associates and clients worldwide for their loyalty and invaluable contribution to the research process, and for always being keen to provide their extraordinary comments. We promise to keep adding real value to our clients’ business, even in difficult times, while managing complexity with *“swiftness, strategic thinking and accuracy”*.
