Cyprus at a glance

Cyprus is the third largest island in the Mediterranean Sea, located at the Eastern end of Europe, at the crux of the busy shipping and air routes linking three (3) continents, Europe, Africa and Asia and in close proximity to diversified civilizations and settings. The island, through its rich and fascinating history, going back more than 10,000 years, has developed from a Stone Age settlement to a modern and thriving European Union state, harmoniously blending influences from different civilisations. This small but dynamic island has a long-established reputation as a “centre of excellence” for international business activities, retaining unique clusters of expertise and service capability to support key growth sectors of the economy.
