

Supporting local and international charitable organizations

For us, at Patrikios Pavlou & Associates LLC, being responsible towards all stakeholders has always been a high priority and an essential corporate determinant for value creation. The firm has a long and deeply rooted tradition of being an active advocate of ethical, honest and responsible practices towards the community with whom it interacts. We are committed in providing top level legal services with the utmost ethical standards, acknowledging that our activities and actions reflect on our society and the environment in which we operate.

As one of the leading law firms in Cyprus, we are active promoters and supporters of local economic growth by sponsoring local events, applying environmental-friendly practices, minimizing our ecological impact, and most importantly, by raising money for local charities and non-profit organizations.

We always seek to provide assistance to those in need and our donations to non-profit organizations have substantially increased. At our [55 years anniversary celebration](#) our Senior and Managing Partner, Mr Stavros Pavlou, announced that an amount equal to the amount spent for the anniversary event would be donated to local and international charitable organizations.

Some of the organizations that we supported throughout the year ([please click on each logo to redirect to their website](#)):

Moreover, our firm was one of the main sponsors of the outstanding Charity Gala – Fashion Show, organized recently by Yiallourides & Partners, which aimed in raising funds to support the “One Dream One Wish” Charitable Association. This year’s event, which included a Fashion Show followed by a Disco party, not only was a great success, but also the money raised exceeded all expectations.

Once more in December 2018, students from the “Marios Tokas” Limassol Music High School visited our offices to sing the Christmas Carols, in order to raise money for students with financial difficulties. We hope that our contribution will have a positive impact on the lives of as many students as possible.

With over 55 years’ experience, Patrikios Pavlou & Associates LLC recognizes what it means to be viable in the long-run and the importance of responsible actions. Our social responsibility is reinforced through our extended partnerships with firms around the globe that share the same philosophy, culture and values: invest for the future. We aim to achieve the same level of excellence in all the cases in which our lawyers are involved and in community work, as well as in everything else we pursue.
