Highly regarded lawyers in Financial & Corporate

IFLR1000

We are excited that IFLR 1000, the only international legal directory dedicated to financial and corporate transactional work, has ranked our firm among the top law firms in Cyprus in this field and recommends our law firm as a “strong Financial and Corporate firm with strong cross border capabilities”.

Our team is praised for being “very professional and pleasant to work with, fast and business oriented”. Mr Stavros Pavlou, Senior and Managing Partner, Mrs Lia Iordanou Theodoulou, Partner-Head of Corporate Finance, and Mrs Stella Strati, Partner-Corporate Finance are highly regarded lawyers in Banking & Finance, Capital Markets and M&A for their expertise in handling projects on financing and refinancing of oil and gas companies, for acting on public takeovers, acquisitions and sales of companies across various sectors and for advising trustees on corporate restructuring mandates.

Along with our leading individuals, two of our Senior Associates, Angeliki Epaminonda and Elena Georgiou, have been recognized for their great project management skills, their excellent responsiveness and their swiftness.

Once again, the great results reflect the excellent work done by the whole of our team, whose support has been invaluable to this achievement. A great thank you also to our extended network of associates worldwide for their extraordinary comments and their loyalty throughout the process. We keep our promise to continue providing top quality legal services with commitment to excellence.
